# The Problem

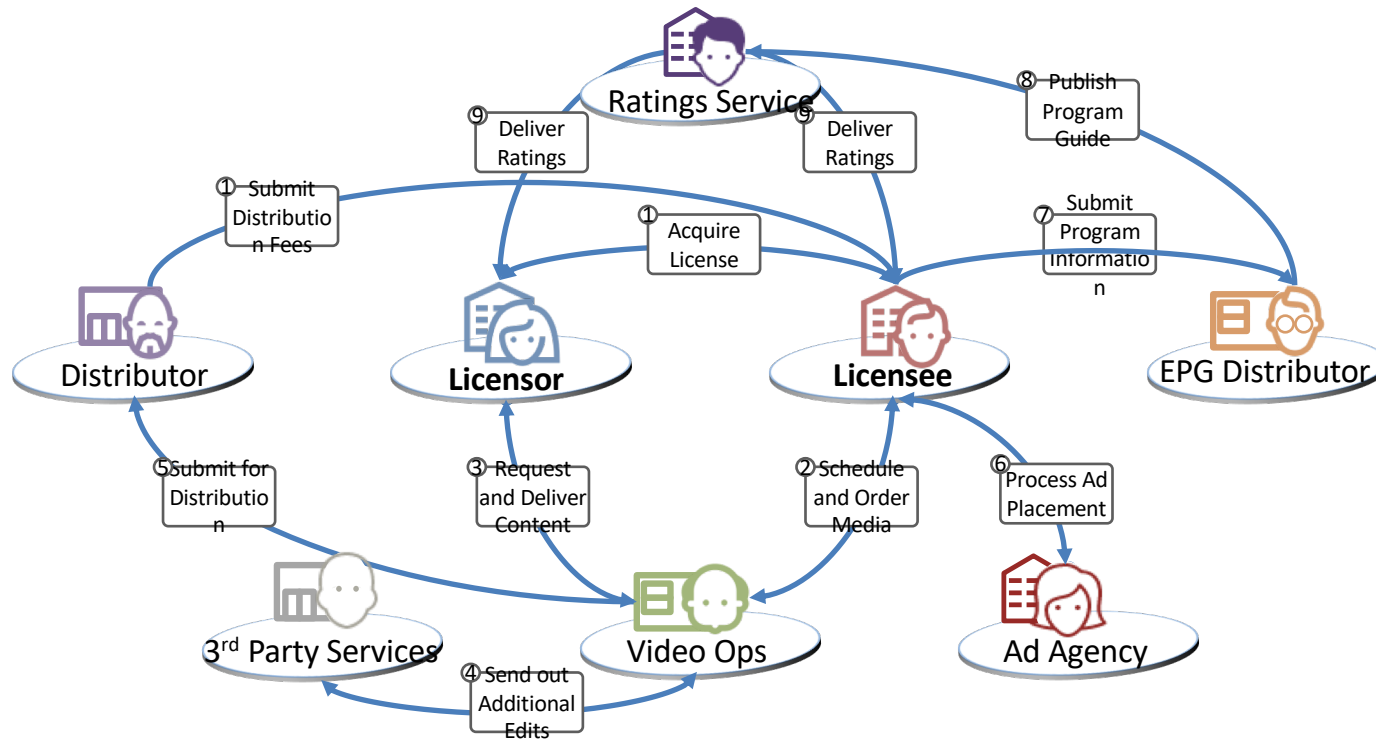

Traditionally, different M&E organizations use different IDs

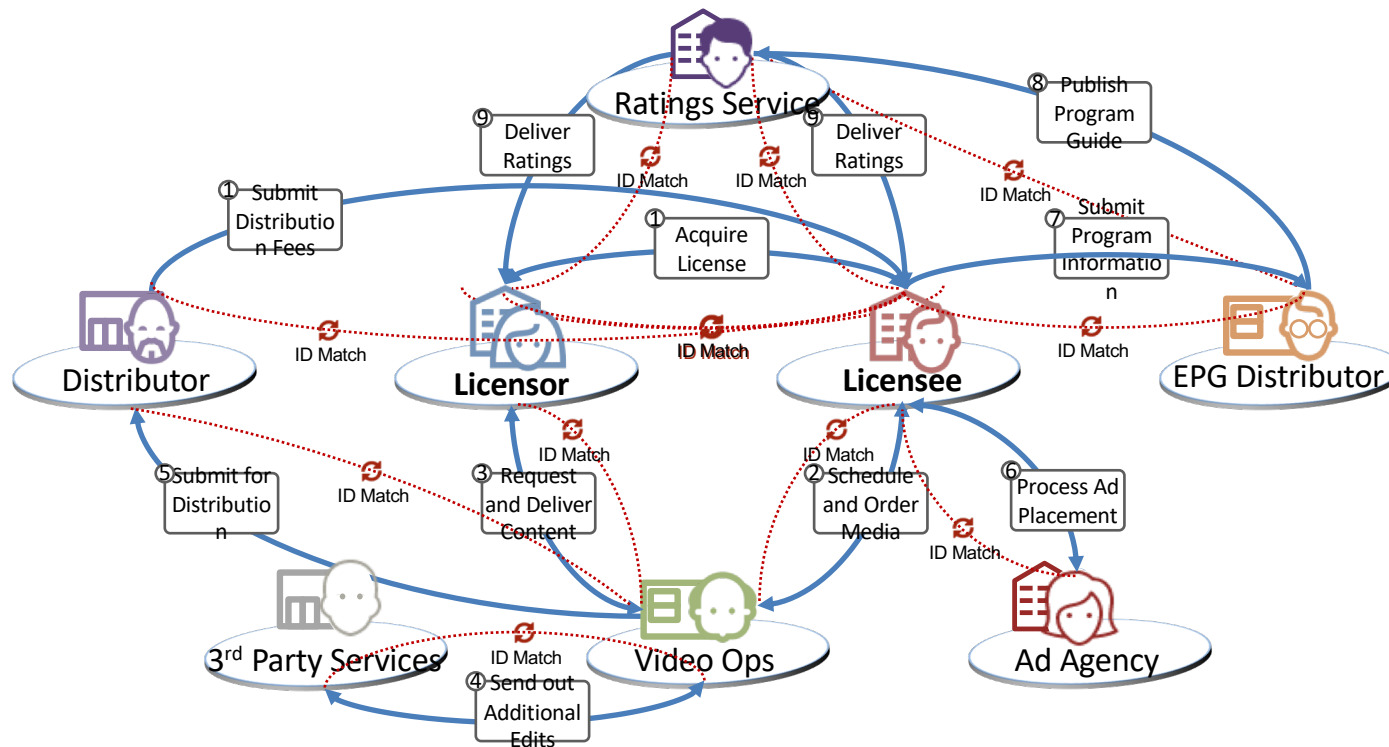

Resulting in a high number of IDs to process and match

(examples, BBC, A+E, Google Play, Viacom)

# Onboarding Broadcast Content

# The Negative Network Effect

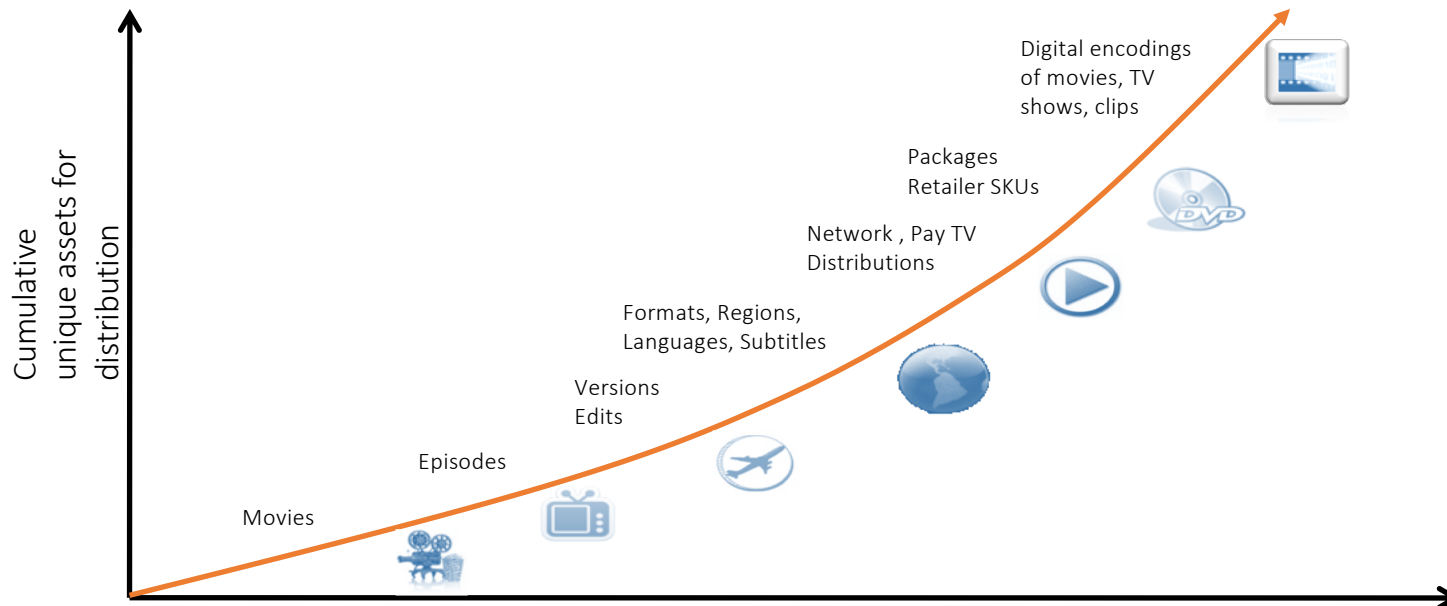

# Rapid Growth in 2015-2018 and Beyond

# However.. Titles, Versions, & Encodings Continue growth

Digital technology + new formats + new devices have caused the number of unique assets to explode

# Kantar Media Audio Watermarking Technology Broadly Adopted

Channel-in-a-box	Transcoding solution	Monitoring solution	Live hardware audio watermark embedder
    	   	  	

Currently in touch with broadcast manufacturers to discuss how-to port our OBID/OBID-TLC libraries into broadcast-grade hardware and software solutions.

# Deepen the Story

- **ADVERTISER:** Durex
- **Where:** UK
- **Who:** Havas / Durex campaign for RB
- **What:** Users experience **another side of the narrative** if they use the mobile app when the ad is airing on TV or on YouTube.
- The 2<sup>nd</sup>-Screen app reveals synchronous behind-closed-doors video (via the less-regulated internet)
- **Why:** To promote the brand's first dedicated **e-commerce site** and to encourage people to be more confident about **experimenting with Durex products**.

“There is huge further potential in this **technology** and we expect that other brands will follow Durex's lead in tapping into it.,” say RB, Durex’s owner

# Getting Started with TAXI Complete

1.

Register content  
with EIDR

Require ads  
include Ad-ID

2.

Embed Once:  
Enable Multiple  
Applications

3.

Contact Kantar  
Media

- Workshops & Pilot Tests
- ATSC 3.0 Trial
